VICTOR DELGADO

Huntington Beach, CA | vtdelg@gmail.com | Portfolio: victordelgadopm.github.io

PROFESSIONAL SUMMARY

Product and portfolio leader with 10+ years of experience across product strategy, product development, portfolio management, marketing, ecommerce, procurement, and consumer products. Skilled in Voice of Customer (VOC) research, competitive analysis, data analysis, pricing, forecasting, project management, and go-to-market execution, taking products from concept through launch and growth while partnering with cross-functional teams. Recent Product Management experience includes AI platforms, SaaS, enterprise integrations, workflow automation, and agent-driven products.

PROFESSIONAL EXPERIENCE

Freelance Consulting

Product Management Consultant *Remote | October 2026 – Present*

- Current project: RVToad.com, an online marketplace connecting buyers and sellers of flat-tow vehicles with the businesses that serve them.
- Own product strategy and roadmap, and evaluate UI/UX and onboarding, with my feedback shaping the site redesign now in progress.
- Develop growth strategy across B2B partnerships, industry advertising, and marketplace services, delivered through PRDs, strategy decks, and workflows.

Kolo AI

Product Manager *Remote | July 2025 – August 2026*

- Led product strategy and vision for a secure AI orchestration platform enabling reusable AI Skills and multi-agent workflows for enterprise automation, built on OpenClaw and integrating leading LLM providers including Claude, ChatGPT, and Gemini, alongside open-source models.
- Owned the full lifecycle of AI automation workflows for business teams, including an Email Marketing Manager, CRM Pipeline Manager, Social Media Marketing Agent, Prospecting Agent, SEO & GEO Audit workflow, and Product Discovery, from user research and requirements through prototyping, testing, and launch.
- Translated Voice of the Customer (VOC), customer insights, and business needs into PRDs and prioritized roadmaps, partnering with engineering and executive leadership.
- Wrote requirements as GitHub tickets and took part in daily Agile sprint meetings with engineering and executive leadership to prioritize work, review progress, and give feedback, then tested and iterated on new builds by creating pull requests and pushing updates to GitHub using Claude, Cursor, and the internal platform.
- Defined requirements for third-party integrations and the AI Skills marketplace, including how Skills are discovered and vetted, and handed them off to engineering for implementation.
- Partnered with leadership on pricing, onboarding, governance, and go-to-market strategy, prioritizing high-impact initiatives and improving operational efficiency.

Infinite Commerce

Sr. Product Development Manager, Team Lead *Monrovia, CA / Remote | July 2017 – July 2025*

Career Progression: *Senior Category Manager, New Product Development → Sr. Portfolio Marketing Manager → Sr. Product Development Manager →* ***Sr. Product Development Manager, Team Lead***

Product Development & Approval

- Directed end-to-end product development for a multi-category consumer portfolio, identifying market gaps, researching consumer demand, managing pricing, and driving products from ideation through launch.
- Led cross-functional product development across Legal, Compliance, Design, and Quality Assurance, managing patent and copyright clearance, packaging and design approval, and pre-launch quality and stability review.
- Owned brand direction and creative approval for each product, briefing Design and Photography teams and ensuring every product, package, and image aligned with brand standards.
- Built the business case for new products by evaluating margin, total cost, and projected unit sales to guide investment decisions, negotiating directly with global sourcing partners.
- Traveled domestically and internationally to evaluate suppliers, assess manufacturing capabilities and production capacity, and negotiate directly with factory and vendor leadership on pricing, quality, and terms.

Consumer Insights & Commercial Strategy

- Conducted Voice of Customer (VOC) research through competitive analysis and customer review mining to identify product gaps, complaints, and unmet demand, directly informing new product development.
- Owned product pricing and commercial strategy, evaluating competitive positioning, market conditions, consumer demand, and financial objectives to balance growth, profitability, and market opportunity.

- Monitored product-level margin and sales performance against sourcing targets, proactively adjusting pricing, listings, and keywords to sustain underperforming items and prevent discontinuation.
- Built and maintained a centralized performance tracking system using data extracted from Power BI dashboards, monitoring sales and margin trends across the assortment to flag at-risk products, guide corrective action, and inform decisions on new product variants.
- Analyzed sales velocity across multiple time horizons and seasonal patterns, proactively flagging reorder needs to the forecasting team to account for long overseas production and shipping lead times, protecting continuous listing availability and preventing lost platform rankings due to stockouts.

Marketing & Go-to-Market

- Directed go-to-market execution for new product launches across Amazon, Target, Walmart, and other ecommerce platforms, ensuring complete, brand-aligned listings and creative assets were in place at launch.
- Owned end-to-end listing optimization including titles, keywords, images, and pricing across the active portfolio.
- Monitored advertising keyword performance across the portfolio, identifying underperforming and missing keywords based on deep product knowledge and directing the advertising team to adjust targeting and spend.
- Drove conversion through A/B testing of main product images, along with pricing updates, promotional placements, and virtual bundles across the active portfolio.

Team Leadership & Cross-Functional Execution

- Led and mentored Product Development Managers, providing strategic direction on product development, prioritization, execution, and professional growth while standardizing development processes across teams.
- Extended influence across departments beyond formal scope, proactively identifying issues and directing changes in sourcing, design, marketing, and forecasting to protect each product's performance and brand integrity.
- Applied ecommerce data, consumer trends, and machine learning tools to uncover assortment gaps and growth opportunities across a large-scale, multi-category product portfolio.
- Collaborated with global teams across sourcing, design, and operations to execute category strategies and scale product development across the portfolio.

Nitori USA, Inc. / Aki Home

Procurement Manager *La Palma, CA | November 2014 – July 2017*

- Managed end-to-end procurement of furniture, décor accents, hardlines, and softlines, including coffee tables, side tables, rugs, and window blinds, sourcing ahead of season to align assortments across complementary product categories.
- Developed and executed sourcing strategies based on market trends, product demand, competitive pricing, supplier capabilities, and overall assortment needs, balancing cost, quality, timing, and product fit.
- Negotiated pricing, payment terms (Net 30/60), and low FOB costs with domestic distributors and overseas factories on smaller order quantities, building vendor relationships through trade shows, direct outreach, and ongoing negotiation.
- Designed store-specific planograms to optimize product placement within available space, improving visual merchandising and product turns across store locations.
- Forecasted demand and analyzed market trends to guide assortment planning, reducing weeks of stock and improving inventory turnover and profitability.
